User Manual

- To start the website, node/nodemon app.js should be entered in the terminal.
- To view, localhost:3000 should be typed in a browser.

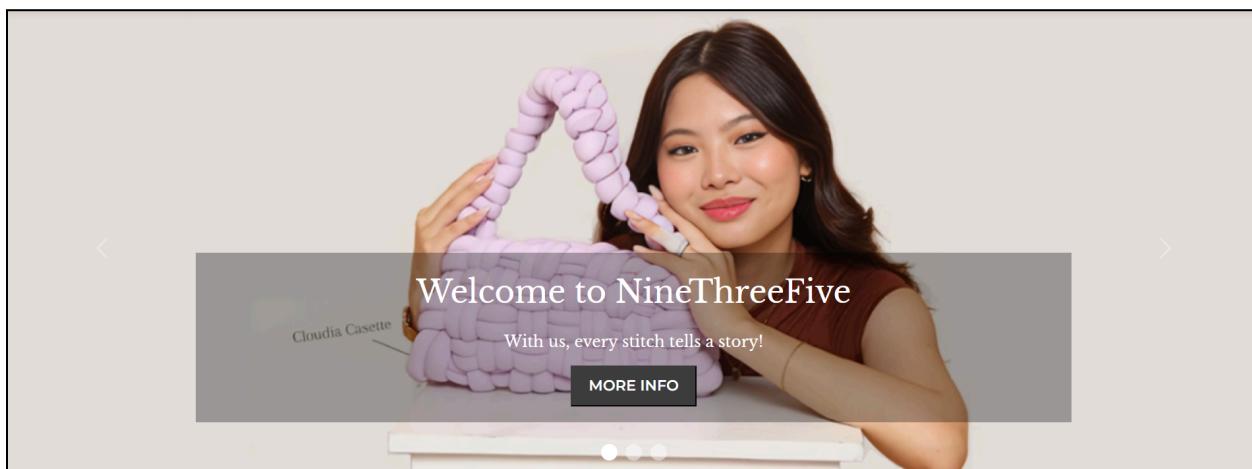

• Navigation

- The navigation bar of the website contains the major web pages and it will help in navigating the whole website.
- It contains the Logo, and the major web pages such as the Home, Features, Products, and Contact Us page. Moreover, it contains a user icon where users can sign-up and login.
- The customer list and customer messages page are meant to view important information about users.

• Home Page (Carousel)

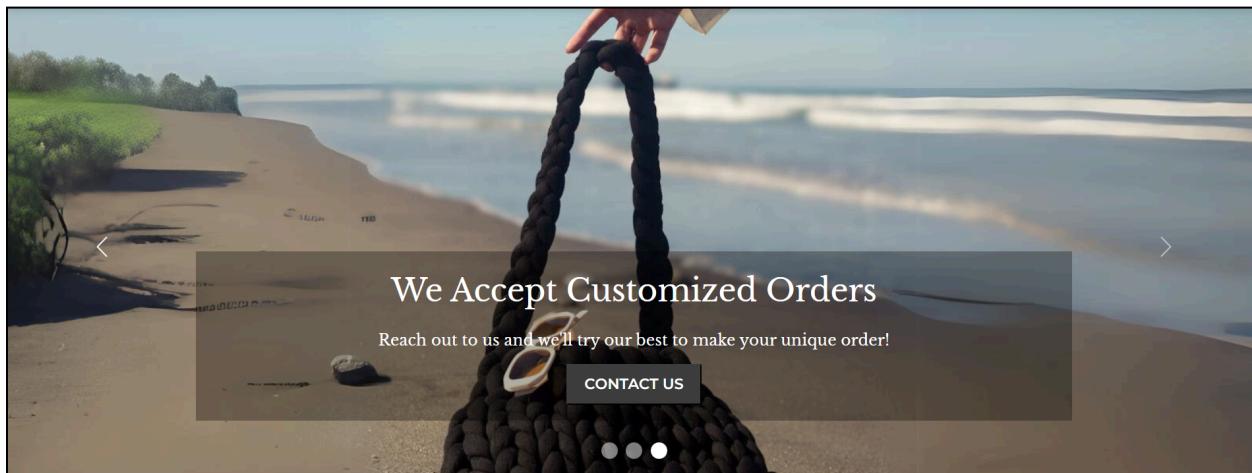

- In this section of the home page, there are 3 hero images used.

- This welcomes users into the website. If more info is clicked, the user will be redirected to the Features page.

- The purpose of this slide is to entice the users of the website to view our products. Once the “SHOP NOW” button is clicked, the user will be redirected to the Products page.

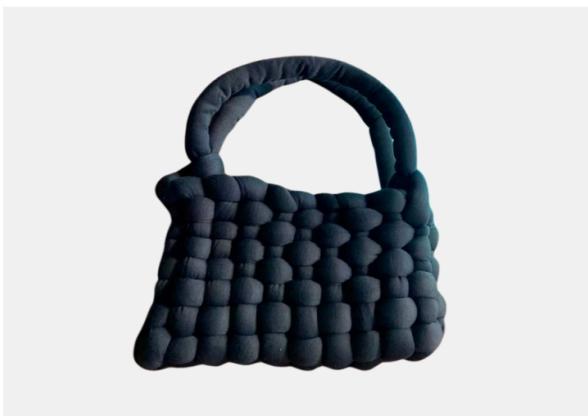

- The last image for the carousel is used to showcase how the business accepts customized orders. If the “CONTACT US” button is clicked, the user will be redirected to the Contact Us page where a user can message the business for customized orders.

- **Home Page (Popular Now)**

- This section showcases the best seller or popular product at the moment. It has an image of the product, and certain important details such as the name, description, price, and available colors.
- A user can also see the different colors of the bag based on the available colors by simply clicking on the color buttons.
- Clicking the “VIEW OTHER PRODUCTS” button will redirect the user to the Products page.

POPULAR NOW

Halo

Elevate your style with the Halo Bag, where a more pronounced voluminous design evokes a sense of grandeur and allure. The expanded cushioning creates a sleek, refined look with its simple design and subtle pattern. This bag not only exudes opulence but also offers a bold, distinctive statement, perfect for those who seek a blend of comfort and striking design.

• Home Page (Categories)

- This section shows the four categories of bags that the business currently has. Hovering over the images will show the names of the categories and clicking them will redirect the user to the Products page.

CATEGORIES

- **Home Page (Why Choose NineThreeFive)**

- This section simply discusses what the NineThreeFive is and why users should try the crochet bags of the business. Clicking “LEARN MORE” will redirect the user to the Features page.

Why Choose NineThreeFive?

Our handmade crochet bags stand out with unique, handcrafted patterns that can capture the attention of others. We offer high-quality craftsmanship at affordable prices, ensuring you get both style and durability. Each bag is a labor of love, combining exceptional design with lasting value, so you can carry a piece that's as unique as you are.

[LEARN MORE](#)

- **Features Page (Videos and Pictures)**

- The Feature page contains the videos, photos, and explanations about the different features of the business.

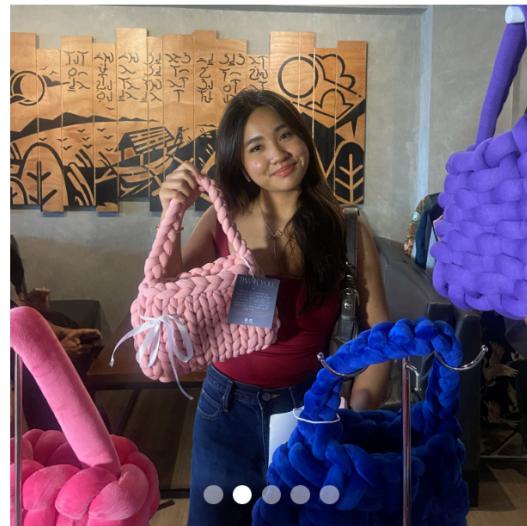

Different Types of Bags

Elevate your style with our beautifully crafted crochet bags. We have different types, each designed for different needs and styles. Choose from our categories, or you can reach out to us if you wish to have a customized order. Each piece is meticulously handmade, offering both functionality and unique charm to fit your fashion and lifestyle.

Pop-Up Booths

We collaborate with other local businesses wherein we open pop-up booths and sell our products for a number of days. These partnerships have allowed us to strengthen our community ties, and to further reach a wider audience that may want to buy our bags. By working together with other businesses, we strive to bring fresh perspectives and innovative touches to our bags in order to make them more special.

Materials & Accessories

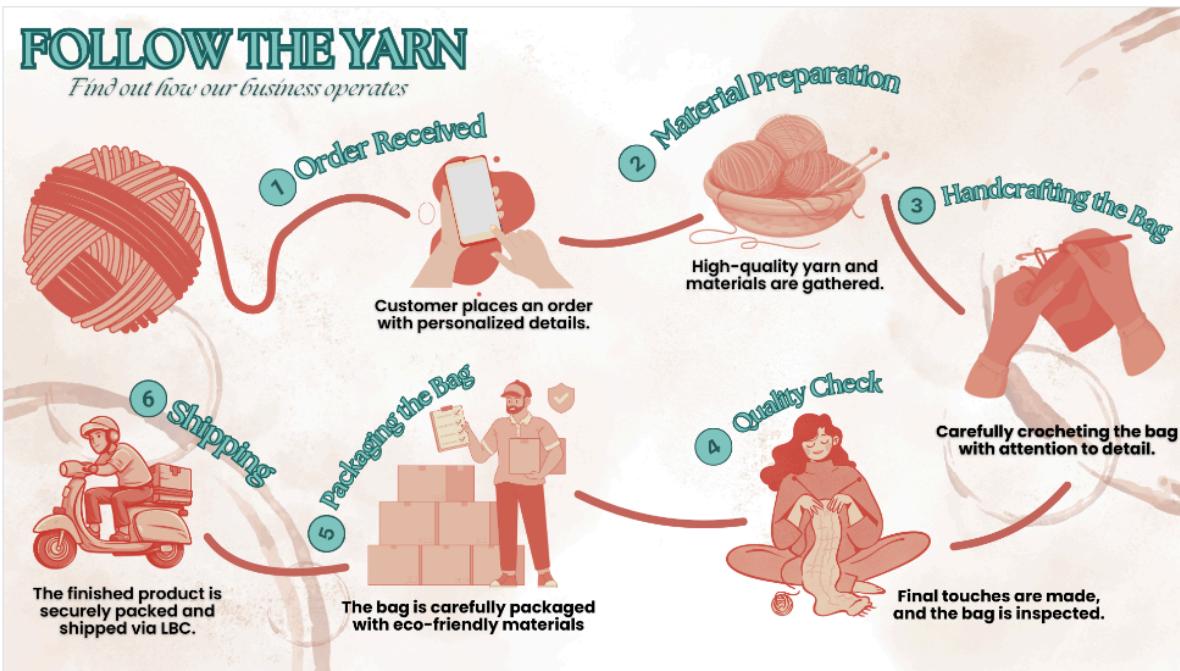

In creating our bags, we use Velvet and Rib-knit yarns. Velvet yarn adds a soft, luxurious touch and a glossy finish that catches the eye while Rib-knit gives a sturdy, stretchy base that holds its shape and can handle daily wear. By using these two as our bag's key material, we are able to create elegant and durable crochet bags.

- **Features Page (Infographics)**

- The Feature page also contains an infographic that shows the entire process of how the business operates from receiving an order until the delivery of the bag to the buyer.

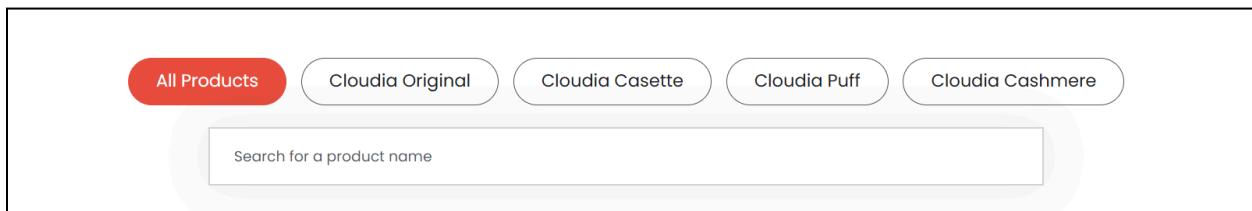

The NineThreeFive Process

Here is how we operate or how we handle our orders, highlighting the transformation of our bags from start to finish.

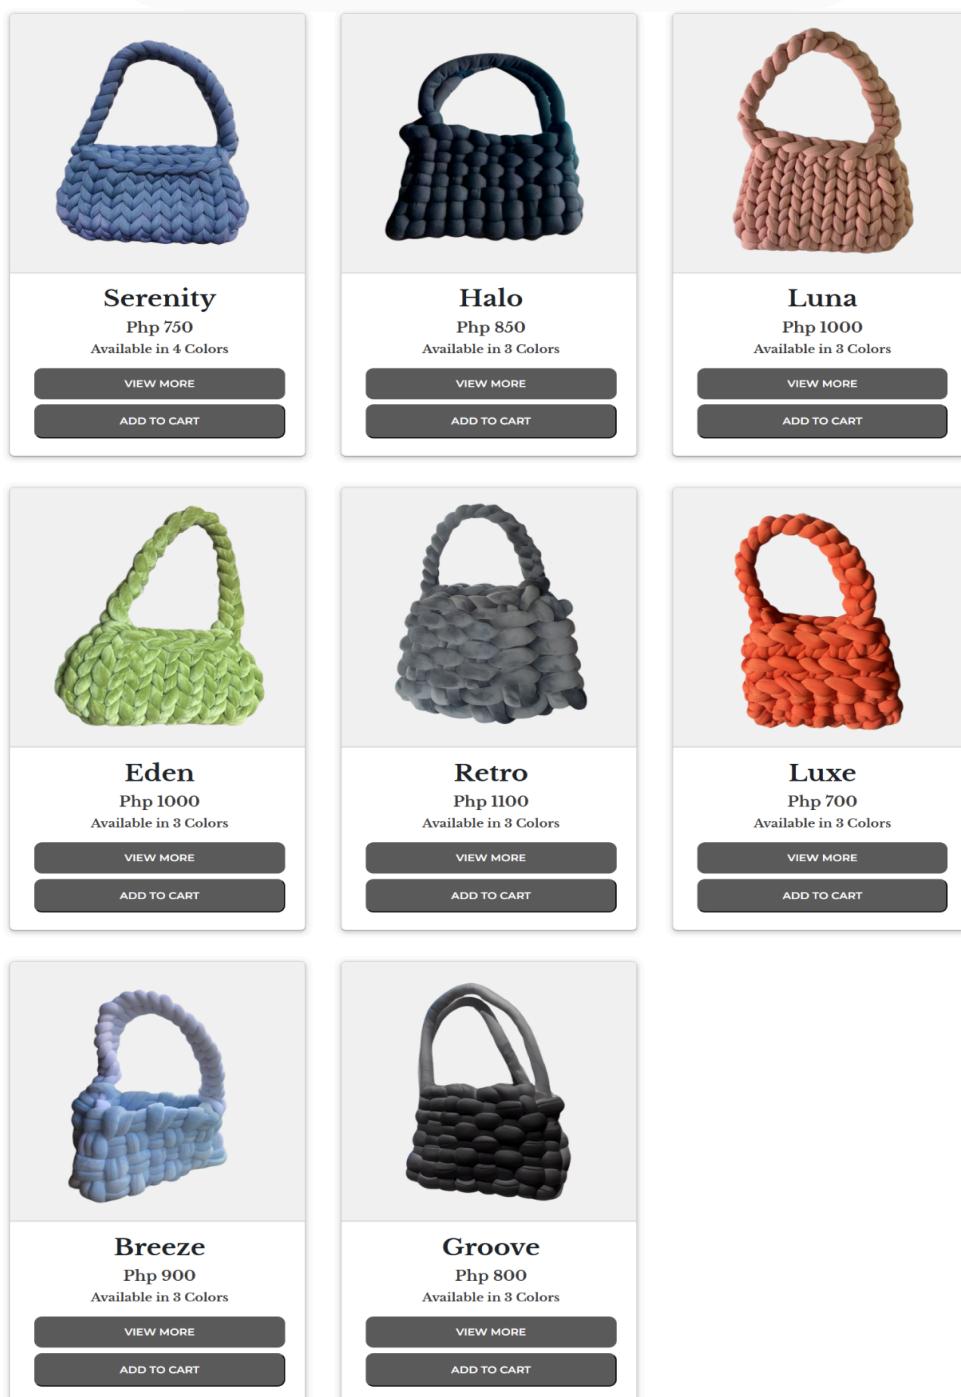

• Products Page (Search and Filter)

- The Products page contains a filtering feature wherein a user can filter the products list by clicking the category that they like. By default, all products will be shown.
- It also contains a Search By Name feature where a user can type a specific product name and it will remove all other products.

- **Products Page (Products List)**

- The Products page showcases the different bag products that the business currently has. It contains the image, name, price, available colors, view more button, and the add to cart button.

- **Products Page (Shopping Cart)**

- For users to have a way to order, a shopping cart section is added at the bottom of the Products page
- Once a user adds a product to their cart, the details of the order will appear. It will include the picture and name of the item, it will prompt the user to input a color of the bag based on the available colors, it will show the quantity and will allow the user to input how many they like, and lastly, the price of the product/s.
- The cart will automatically compute the prices of all the products and will show the total amount.
- The cart also has a delete feature where a user can delete an order if they want to.
- Once the user clicks the check-out button, everything in the cart will be removed and a pop-up message will appear.

Shopping Cart

Item	Color (select from available)	Quantity	Price
			Total Php 0

[CHECKOUT](#)

- For the product page, a cart icon will appear in the navigation bar. Once clicked, the page will automatically navigate to where the shopping cart is.

[Home](#) [Features](#) [Products](#) [Contact Us](#) ≡ 👤

- **Products Page (Specific Product)**

- Each product in the products list is clickable (in the image or the view more button). Once clicked, users will be redirected to a new page which contains the specific product. Each color is also clickable for viewing of different product colors.

The screenshot shows a product page for a blue crocheted bag. At the top, there's a navigation bar with the logo 'NineThreeFive', Home, Features, Products, Contact Us, and a user icon. Below the navigation is a large image of the blue crocheted bag. To the right of the image, the product name 'Serenity' is displayed in bold. A descriptive text follows: 'Embrace tranquility with the Serenity bag, designed with a single, gracefully curved lip opening. Its serene lines evoke a sense of calm and order, offering a tranquil space to store your essentials with effortless elegance. Perfect for those seeking a harmonious blend of form and function.' The price 'Php 750' is shown in bold. Below the price, there's a 'COLORS' section with four colored circles (blue, green, purple, pink) and a 'VIEW OTHER PRODUCTS' button.

- Moreover, this page also has a customer reviews section which contains the reviews or feedback of customers about the product.

CUSTOMER REVIEWS

Pretty But Could Use Some Improvements

This crochet bag is cute and has a nice design, but it has a few issues. The craftsmanship is decent, but there are some loose threads and uneven stitching. The size is alright, but it feels a bit smaller than I expected

Stefano Jefferson

Lovely Crochet Bag for Everyday Use

I'm really happy with this crochet bag! It's beautifully made with nice color and pattern. It's the perfect size for my daily stuff and looks great for any occasion. The handle is strong and it feels well-made. Highly recommend!

Lacro Torrealba

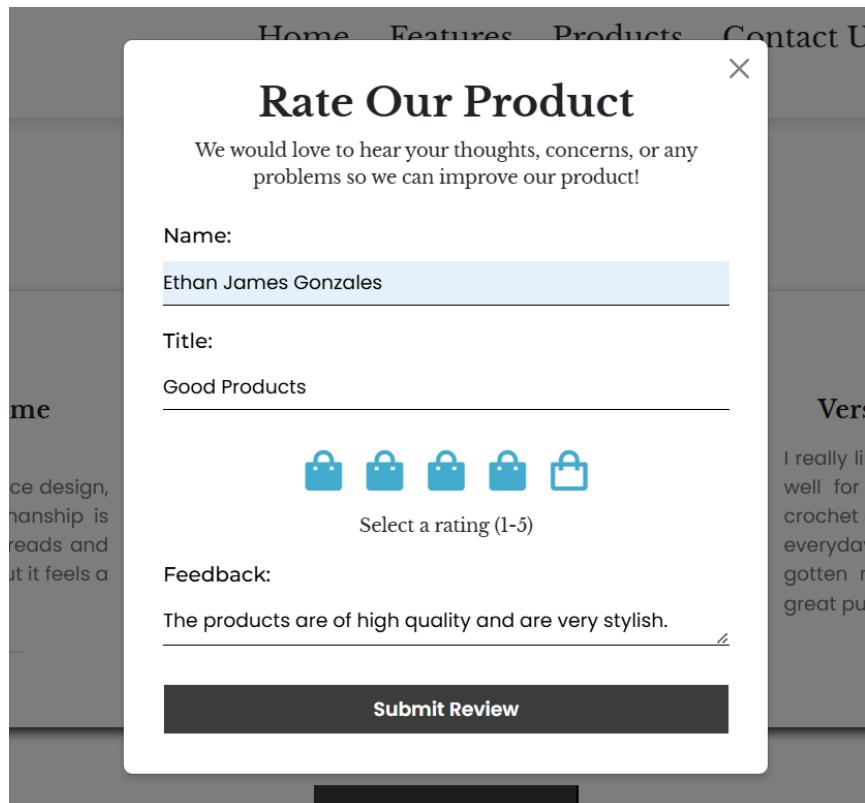

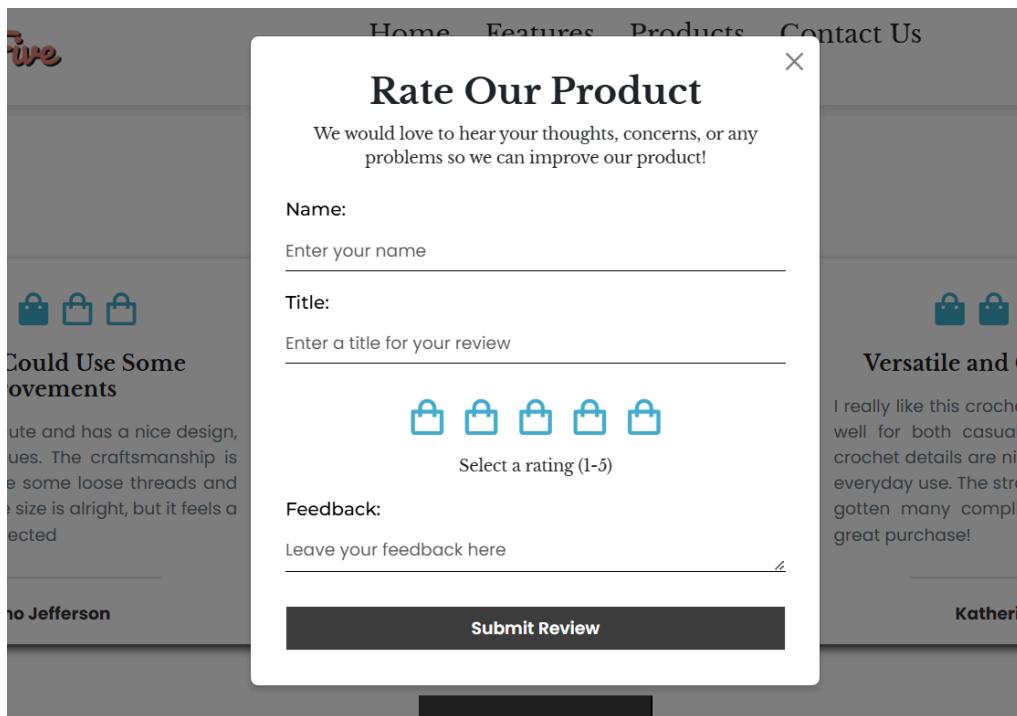

Versatile and Chic Crochet Bag

I really like this crochet bag! It's chic and works well for both casual and dressy outfits. The crochet details are nice, and it's a good size for everyday use. The strap is comfortable, and I've gotten many compliments on it. Definitely a great purchase!

Katherine Miranda

[WRITE A REVIEW](#)

- Users can leave a review by clicking the “WRITE A REVIEW” button. It will display a modal containing a form for customer reviews and ratings.

- **Contact Us Page (Message Form)**

- The Contact Us page has a message us form wherein a user can input a message if they want to say something to the business. It can be used for customized orders, for asking queries, and many more others.
- The Contact Us page message form also contains the marketing options that the user can choose which are either through email or social media.
